Ernakulam, Kerala, India

## CAREER OBJECTIVE

Integrated M.Sc. Computer Science (Artificial Intelligence & Machine Learning) student with a strong foundation in programming, data analysis, and machine learning. Passionate about Artificial Intelligence, Data Science, and Software Development, with a keen interest in developing intelligent solutions for real-world challenges. Quick learner possessing excellent analytical and problem-solving abilities, eager to explore emerging technologies while continuously enhancing technical expertise. Seeking opportunities to contribute, learn, and grow in an innovative and challenging environment.

## EDUCATION

### Integrated M.Sc. Computer Science

Specialization in Artificial Intelligence & Machine Learning

Bharata Mata College, Thrikkakara  
2022 – Present

## KEY SKILLS

- Python
- SQL
- Power BI
- Machine Learning
- LangChain
- LangGraph
- R Programming
- GitHub

## TECHNICAL TOOLS

- Google Colab
- Jupyter Notebook
- VS Code
- GitHub
- Vertex AI
- FastAPI

## SOFT SKILLS

- Leadership
- Teamwork
- Problem Solving
- Adaptability
- Time Management
- Quick Learner

## EXPERIENCE

### Software Development Intern

Edspiroid Systems Private Limited

- Worked on AI-powered Software Development Life Cycle automation.
- Developed backend APIs using FastAPI.
- Built AI workflows using LangChain and LangGraph.
- Worked with Google Vertex AI and Gemini models.
- Assisted in feature development, debugging and API integration.

### Python Intern

IROHUB Infotech Pvt. Ltd.

May 2023 – June 2023

- Gained practical experience in Python programming.
- Worked on programming assignments and software development tasks.

### Web Development Intern

Green Media, Kaloor

- Completed one-week web development training.
- Learned HTML, CSS and website development fundamentals.

## PROJECT

### Phishing URL Detection Using Gradient Boosting

- Developed a Machine Learning model to classify URLs as phishing or legitimate.
- Applied Gradient Boosting algorithm for accurate prediction.
- Performed feature engineering, preprocessing and model evaluation.

## ACHIEVEMENTS

- Google Cloud Study Jams Participant.
- Conducted AI outreach sessions for students across multiple schools.
- Delivered an extension lecture on Artificial Intelligence and AI Tools at Jnana Niketan Institute, Kerala.

## AREAS OF INTEREST

- Artificial Intelligence
- Machine Learning
- Data Analytics
- Data Science
- Software Development
- Generative AI

## LANGUAGES

---

- English
- Malayalam
